CONCEALED WC FRAMES WITH DUAL FLUSH FUNCTIONALITY

Features & Benefits

- two models to choose from - low and high
- two plates to choose from - square and circular
- height adjustable powder coated frame
- dual flush operation - 3 & 6 liter
- load resistance - up to 400 Kg
- fill duration of cistern - 39 seconds @ 3bar
- supplied complete with all necessary components
- robust and durable construction
- cisterns incorporate original Fluidmaster fittings

ISLAND FREE STANDING ACRYLIC BATHS

Island free standing baths are made from 3.0mm thick Lucite acrylic sheet. For strength and rigidity they are sprayed with a heavy resin bonded mesh backing. They feature a double wall construction - the wall of the bath and the wall of the outer shroud. The baths also feature a zinc plated metal base frame which include adjustable levelling feet. Included with each bath is an chromium plated popper waste and overflow outlet and shallow seal water trap with flexible pipe attached.

SANTOR €382.36

Each bath needs to be secured and sealed to the floor by inserting a suitable amount of Silicone Rubber Sealant into a 3mm gap formed all around the lower edge of the bath and the floor. Adjustment is obtained by adjusting the screw feet at the bottom of the steel frame legs.

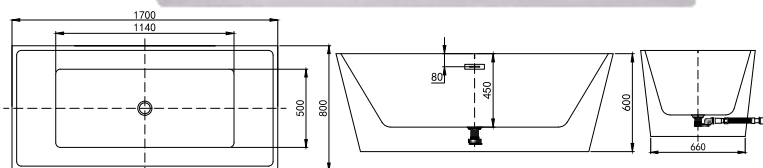

Each bath is supplied with a shallow seal trap connected to a flexible pipe which in turn is connected to a 40mm coupling ready to accept standard 40mm waste pipe.

Technical Data

Minimum inlet pressure : 2 bar
(to provide an invigorating shower).
Maximum inlet pressure : 6 bar

SLINE17K Thermostatic Shower Valve Kit €166.35

Features

- Exposed Thermostatic Mixer
- Pipe Concealing Rosettes Included
- ¼ Turn Ceramic Disc Flow Control
- Safety Lock Device on Temperature Control
- 4 Function Hand Shower
- High Quality Chrome Construction
- Push Button Riser Rail Operation

Expected outlet flow rates in litres per minute based on the tabled dynamic water pressures :

Pressure (bar)	2.0	2.5	3.0
Flow rate (litre)	10	12.5	15

SLINE51 Traditional Dual Control
Thermostatic Shower Valve €317.63

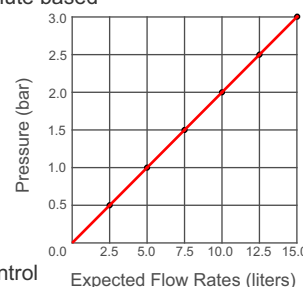

TSV100 Thermostatic Shower Valve €105.88

Expected outlet flow rates in litres per minute based on the tabled dynamic water pressures :

Pressure (bar)	2.0	2.5	3.0
Flow rate (litre)	10	12.5	15

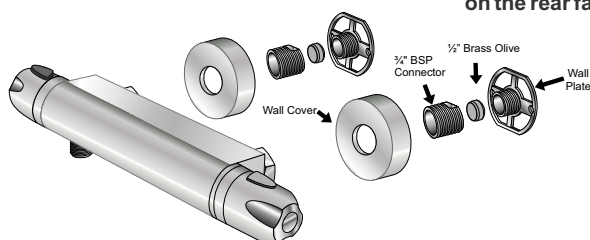

Features

- Exposed Thermostatic Mixer
- Pipe Concealing Rosettes Included
- ¼ Turn Ceramic Disc Flow Control
- Safety Lock Device on Temperature Control

SFKR	Rounds Shower Fixing Brackets	€19.94
SFKS	Square Shower Fixing Brackets	€20.64

This kit is designed to be used with Bar Type Shower Valves - both manual and thermostatically controlled, and which have ¼" BSP hot and cold water connections on the rear face which are at fixed 150mm centres.

TMIIX Thermomix S Thermostatic Valve €252.94

LF317W2 Mounting Bracket Shower Valve €28.68

TPB3058 €0.94

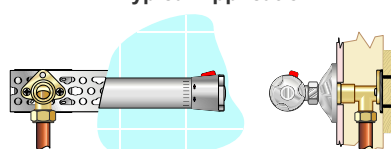

This control blends hot and cold water and delivers it at a safe and comfortable pre calibrated and non user adjustable* temperature of 43 Deg. Celsius. It features independent flow and temperature controls which facilitates reducing or increasing the flow and reducing the outlet temperature. It employs a temperature sensitive element which expands and contracts depending on the temperature of the water entering the shower. This expansion and contraction alters the size of the apertures through which the hot and cold water enters the shower; thereby balancing and controlling the outlet temperature of the water to a safe temperature. It responds rapidly to changes in temperature and pressure in order to maintain a safe and reliable showering environment. * An override button allows the user to exceed the preset maximum temperature.

Separately available are Blanking Plugs which can be used to close off the threaded openings to prevent debris entering the fittings. They are fitted with washers so will also stop water leakage whilst the shower circuit is filled and tested before the Shower Valve is fitted.

TPR3058 €0.94

Typical Application

A plate with two fixed ½" Wall Plate Elbows at 150mm centres. The bracket is fixed to a batten or the wall so that the front face of the Wall Plate Elbows are flush with the finished shower wall.

PRESSON Hook €6.05

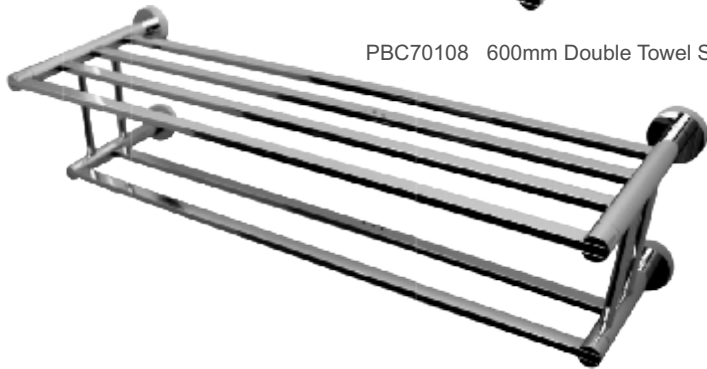

Place the hook against the wall and push the button several times until resistance is reached. The hook is now firmly fixed to the wall and the red circle will no longer be visible. If the circle becomes visible in the future, it indicates that the hook is losing suction power and needs the button to be pushed a few more times. To remove the hook from the wall, simply release the pressure by squeezing the valve on top.

Waste Bin

Having a 5 litre capacity, this foot operated bin. comes complete with a removable polypropylene bin. Manufactured from a polished finished 0.5mm Grade 304 stainless steel. Dimensions: 280mm high, 205mm Diameter

SC342700 €22.05

Introduction

Aquacel decorative PVC panels are designed to enable the provision of easily fitted and attractive wall finishes to bathrooms, shower rooms and kitchens - or any room where easily maintained, waterproof and clean surfaces are required. The panels can be applied to both walls and ceilings.

Available in six finishes, the panels are each 2.5m long, 250mm wide and 8mm thick. The cellular PVC construction incorporating tongue and groove jointing along the edges enables the provision of a smooth and attractive surface which can be fitted directly onto battens or any smooth wall surface. The cellular profile also provides a degree of insulation!

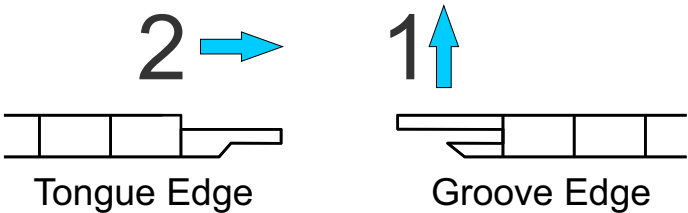

Aquacel Panels are easily trimmed using a craft knife so as to fit into awkward spaces. A variety of Trims provide the means of ensuring a tidy edge where the panels end or join other panels at a corner, or finish at ceiling level.

Application

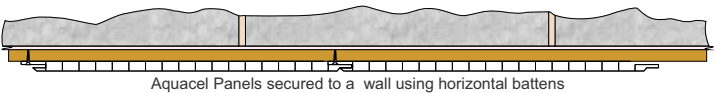

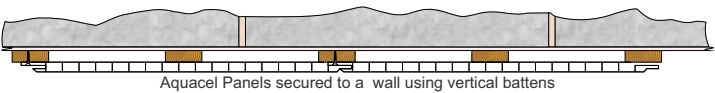

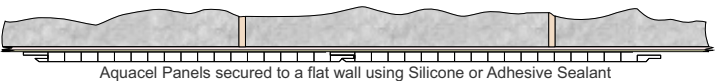

Depending on the wall finish, Aquacel Panels can be secured in a number of ways. If the surface to which the Panels are to be applied are clean, dry, smooth and level, silicone or adhesive sealant may be all that is needed. Otherwise, use 45mm x 21mm vertical timber battening which corresponds to each joint as well as additional battens located so that they support the middle of the panels. Battens can also be positioned horizontally at 450mm intervals.

If bathroom and toilet fittings are to be located against Panelled walls, provide additional battening as needed to ensure that such items are supported by the battens and not the Panels. Staples, screws or brads can be used to secure the joints to the battens.

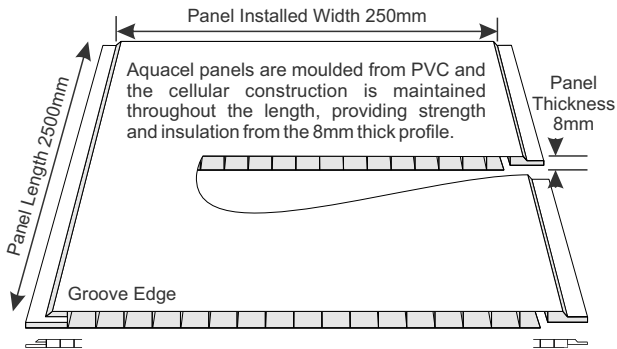

Note that the panels are fabricated so that the vertical edges interlock with a Tongue and Groove design. The panels can be used either way up, but if the panels are to be secured to battening, it is important that the vertical side with the back edge of the "groove" is secured first and the "tongue" side of the panels then slid into position.

As these illustrations show the Panels having grooves on the left and with the tongues to the right, they are shown being installed from right to left. If the panels are used with the Grooves on the right, then the installation would start on the left and proceed to the right.

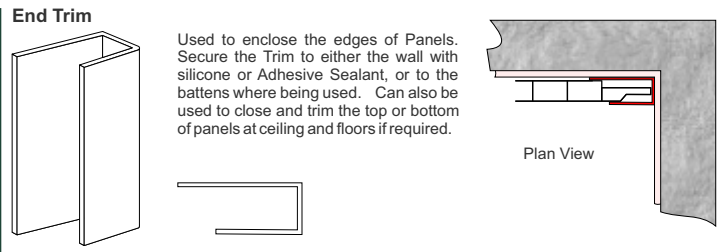

AQC1	Pack of 10 Gloss White Wall Panels	€114.35

HEATED TOWEL RAILS

Towel Warmer Heating Elements (incorporating a 1/2" F.I. Connection)

Towel Warmers, may, as an alternative to inclusion with a normal central heating system, be connected to an electrical supply. This may be achieved by inserting a plug in one of the radiator valve openings at the bottom of the heater and an electric element into the other. The radiator is then filled with a mixture of water and anti freeze (about a 9:1 ratio) leaving a small amount of space for expansion. Filling is carried out by unscrewing one of the plugs at the top of the heater and pouring the mixture in.

Pivot

WATERBOX

Bi Fold

The modern styling of the outward opening Pivot Door creates a supremely efficient and flexible solution. The carefully engineered door cleverly takes up less external space when opened to allow for other bathroom fixtures and fittings. The door can be installed into a recess or combined with a Side Panel to create a corner cubicle.

Picture is an 800mm Pivot Door

- Height: 1900mm
- Glass Thickness: 6mm
- Watertight magnetic seals
- Chromed brass bolt through handle
- Chromed plastic top caps
- Smooth operation hinges with chromed plastic cover caps
- Reversible for left or right hand fixing

		Door Aperture	Adjustment	
WBP7CS	700mm Pivot Shower Door	400mm	640-690mm	€266.03
WBP76CS	760mm Pivot Shower Door	460mm	700-750mm	€266.03

WBP9CS	900mm Pivot Shower Door	600mm	840-890mm	€281.20

The in-fold design of the inward opening Bi-Fold Door makes clever use of available space with minimum bathroom intrusion. The precision crafted glides and hinges ensure the toughened glass effortlessly folds back into the shower surround, whilst the sleek chrome frame maintains a sturdy and secure unit.

- Height: 1900mm
- Glass Thickness: 4mm
- Chromed plastic top caps
- Smooth running bearing assemblies running in the top and bottom rail
- Easy Installation
- Reversible for left or right hand fixing

WBZEXS	Extension Profile 40mm Extra Adjustment			€69.21

Corner Entry

WATERBOX

The Corner Entry is an ideal showering solution for when entry through the diagonal is more practical, but without the compromise on showering space. The ‘quick release’ system on the bottom of each door allows quick and unobstructed cleaning.

Pictured is an 760mm x 760mm Corner Entry Door

- Height: 1900mm
- Glass Thickness: 6mm
- PVC / magnetic seals
- Chromed brass bolt through handles
- Chromed plastic top caps
- Bearing assemblies running in the top rail

Shower Glass Roller Replacement Set

Pressing this button causes the rollers to move down and out of the aluminium track in which they are captive

		Door Aperture	Adjustment	
WBC76CS	760mm Corner Entry Shower Door	375mm	725-750mm	€395.30

WBC9CS	900mm Corner Entry Shower Door	470mm	865-890mm	€430.71

All WaterBox shower doors include high quality rollers. The bottom rollers feature sprung loaded nylon wheels which facilitate easy removal. Replacement sets are available.

Single Door Quadrant

Our elegant Quadrant doors create a stylish and simple showering solution. The Quadrant is a perfect configuration for when space is at a premium. The sliding doors are a clever space saving tactic, whilst offering an indulgent showering area. The “quick release” door roller mechanism makes for easy cleaning. In addition, it is also available in an offset version, which is ideal for a bathroom that has more space to spare on one wall and less on another. See the following page.

Sliding

WATERBOX

Side Panels

With its clear glass expanse, the Sliding Door really highlights the available showering space. The stylish sliding doors glide effortlessly on the single unobtrusive top rail and the 'quick release' mechanism featured on the bottom rail. It is an ideal solution for when there are bathroom obstructions such as sinks and towel rails outside of the enclosure. The Sliding Doors can be combined with Side Panels to create a larger showering area to suit all your showering needs.

Pictured is an 1200mm Sliding Door

- Height: 1900mm
- Glass Thickness: 6mm
- PVC / magnetic seals
- Chromed brass bolt through handle
- Chromed plastic top caps

Wet Room Panel fitted on a tiled floor

Wet Room Panel fitted on a shower tray with a Flipper Panel

Wet Room Shower Panel including Low Level Chrome Brace Bar

At 2000mm high and 8mm thick glass this striking Wet Room Wall Panel will create a minimalist setting. This panel can be installed on a shower tray or on a tiled floor. It is available in six size options and can be fitted with an optional return panel for increased water integrity. Wet Rooms present total ease of access, with door-less entry and level access, which is perfect for the whole family and inclusive for all users.

- 8mm thick glass
- 2000mm high
- Universal Chrome bracing bar included
- Chromed top caps

		Adjustment	
WBSP7CS	700mm Shower Panel	657 - 672mm	€323.82

Waste Options

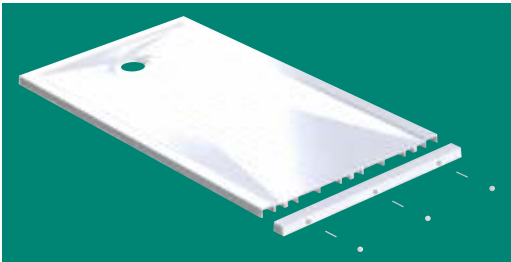

Waste Options
Falcon 30 supplied with 50mm water seal, 1 1/2" outlet ST90CPB-P-70 gravity waste. Flow rate in excess of 35 l/m.

- Lowest entry, high performance tray range, just 30mm high - "Best in Class"
- Independently tested "Best in Class" anti-slip surface to DIN 51097:1992
- Class "C", the highest achievable classification that tests slip resistance, with easy clean finish
- Addresses problematic spaces with the cut to size ability to suit any area where access may be restricted. Can be cut down by up to 300mm
- Reinforced SMC construction tested to withstand 635Kg
- Exceptionally strong & self supporting, rests unsupported on the existing bathroom floor without being bedded down onto a sand and cement mix
- Circular ribbed underside designed for setting into a concrete or screed base & eliminates slippage when installing
- Waste positions situated to allow trap to avoid floor joists
- Unique end cap easily seals and screws in place to conceal the cut end of 700 and 800mm trays. Note: They are not available for 900 or 1000mm sizes

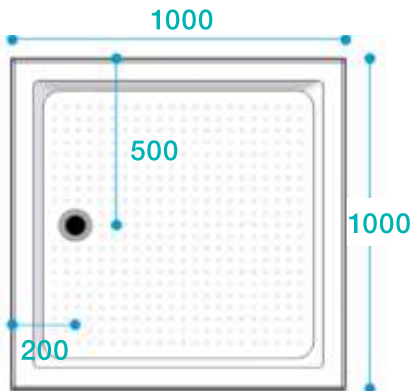

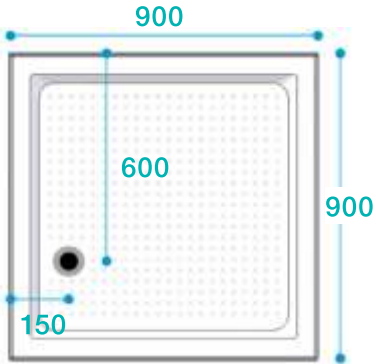

Best in class anti-slip surface to DIN 51097:1992 class "C". Highest achievable classification.

3 "Screw ports" allow the tray to be cut down by up to 300mm and an end cap to be attached.

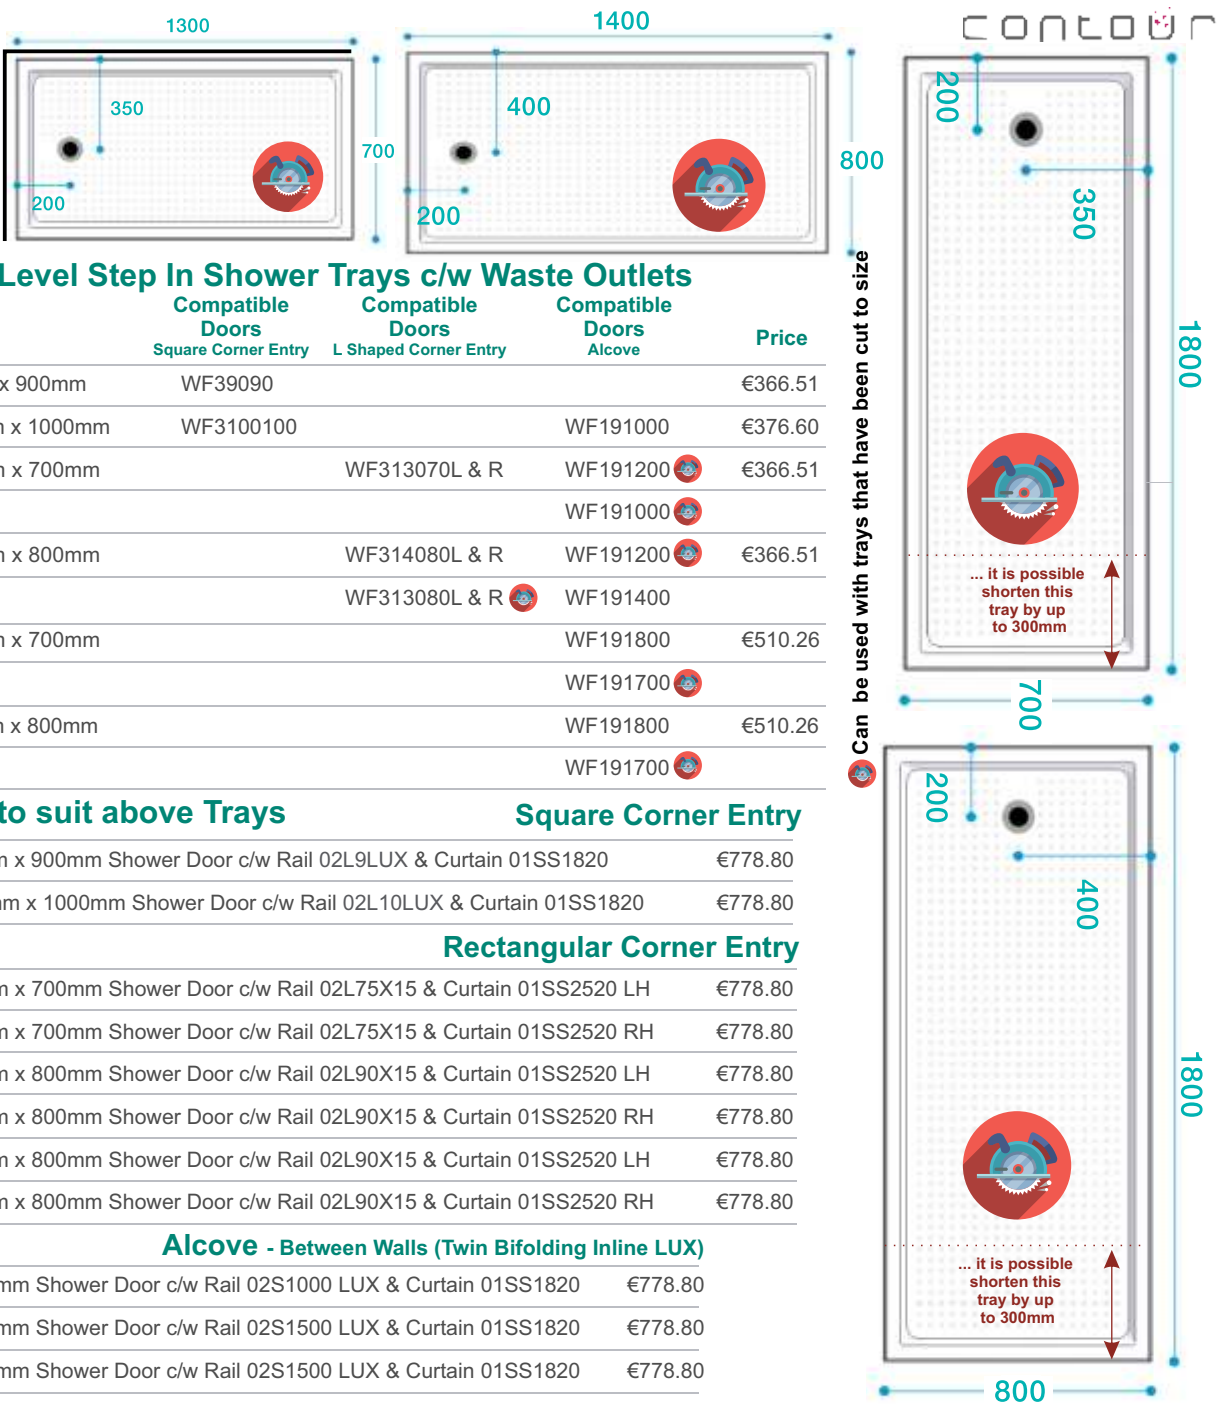

Unique end cap can be used to make bespoke 700mm & 800mm tray lengths, but are not available for 900mm & 1000mm sizes. Square trays cannot be cut.

58 Ultra slim 30mm profile, the Falcon 30's are the lowest shower tray available.

FALCON 30

NOTE! The thick black line illustrates a left hand installation - the corner into which the tray is being installed is on the left hand side; and therefore when ordering a door for this application, a LH version should be specified.

ShowerDec® Wet Room Floor Formers

Pre-formed semi drilled fixings points for easy installation.

OFFSET
POSITION TO AVOID JOISTS

No raised collar around the underside of the waste for easier installation.

Waste Options

These trays are not supplied with a waste outlet. The type required depends on whether the tray is to be tiled (as in the photograph to the left) or covered in vinyl. Use the TSG52T6SS with a tiled floor and the CTW01 with a vinyl floor.

Features

- A level access wetroom shower area concealed beneath the vinyl or tiled flooring once installed
- Tested to withstand 635 Kg across the entire surface area to simulate a standing person
- No additional support needed around the waste assisting ease & speed of installation*
- 24mm thick to facilitate installation with existing floorboards
- 40mm flat area around the floor former perimeter for door placement & water retention
- Larger shower area, ideal for wheelchairs

Suits wooden floors

Load Capacity

Suits screeded floors

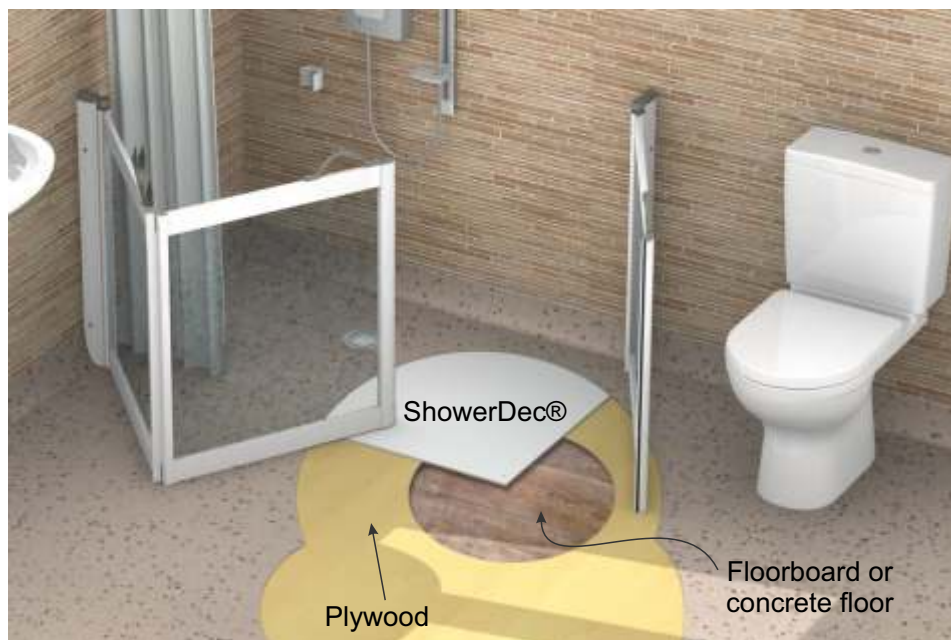

Pumped wastes available (see page 178 + 371)

Cut to size bath replacement options

*Tested in accordance with a standard floor with 16" joist centres of 47mm width & supported around the floor former outer edges. No additional support around the waste area.

ShowerDec® cross section detail.

Vinyl Floor Wastes

- 1 CTW01 €42.35
- 2 TSG52SS €196.63 

Tiled Floor Waste

- TSG52T6SS €196.63 

Easy to Install

- No raised collar around the underside of the waste making installation on timber floors easier.
- Circular ribbed underside designed for setting into a concrete or screed base and eliminates slippage when installing.
- Textured top surface allows excellent adhesion of vinyl flooring.
- Offset waste positions to avoid joists.
- Pre-formed semi-drilled fixing points for secure installation.
- Can be cut to size in virtually any position using a circular saw or jigsaw.
- Suitable for timber & screeded floors.

- Provides a practical corner entry showering solution for users with mobility difficulties or requiring wheelchair access
- Anti-slip surface for an assured underfoot grip
- Installation friendly, no need for intricate corner seam welds
- Hot seam weld vinyl sheet flooring directly onto the tray's unique TRUESEAL2 floor edge profile, creating a perfect watertight joint
- Only requires the removal of ~14mm of flooring, the equivalent of a floorboard (apart from the trap area where additional space is required)
- Locate in wooden or solid floor settings, minimal need for additional support under the tray required
- Shower tray enclosure and ancillary equipment can be installed during one site visit, leaving the flooring to be fitted afterwards
- 14mm tilling lip is watertight and will accommodate wall boards or wall tiles
- Handed & non-handed tray options available
- Exclusively incorporates Biomaster Antibacterial product protection.

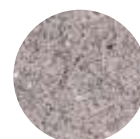

Swift Waste Options

Supplied with 50mm water seal, 1½" outlet STW8B-95 gravity waste. Flow rate in excess of 22 l/m.

Eagle Two Waste Options

Supplied with 50mm water seal, 1½" outlet ST90CPB-P-70 gravity waste. Flow rate in excess of 35 l/m.

Suits wooden floors

Suits screeded floors

Load Capacity

Gravity wastes supplied

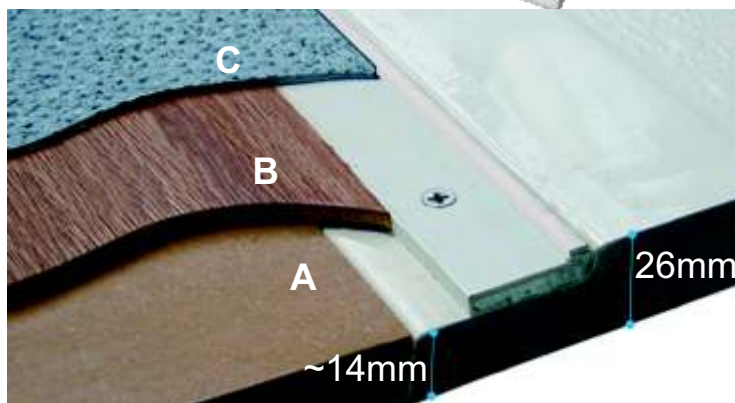

Pumped wastes available (see page 178 + 371)

Swift Tray

Eagle Tray

A - floorboard or concrete flooring
B - 14mm plywood C - 2mm vinyl sheet flooring

Hot seam weld vinyl flooring directly to the shower tray's TRUESEAL2 profile.

User Benefits

- Rise & fall hinge system lifts the doors by at least 10mm as they are opened, to prolong the life of the floor seal and make the doors easier to operate
- Easy grip "D" handles supplied to assist opening
- Full length magnetic door closing seals the door at the closing point.

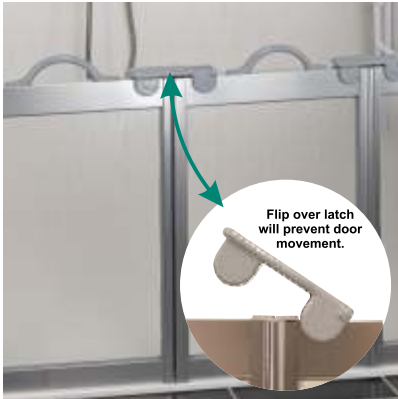

Specifier Benefits

- Manufactured from components that are 100% recyclable
- Glazed with 3mm impact resistant PET
- Half height doors manufactured at 750mm, a preferred height for carers
- All seals manufactured from flexible PVC, rubber or co-extruded rubber

Installer Benefits

- Pre-assembled for easy installation
- Wall leveling compensator allows at least 25mm of adjustment for out of square walls & floors
- Integrated corner block designed to be trimmed to suit 10mm or 38mm radiused floor coverings
- Step by step, easy to follow installation guides supplied

Integrated corner block designed to be trimmed to suit radiused floor coverings.

Flip over latch will prevent door movement.

Rise & fall hinges lift the door by at least 10mm and are easy to operate and highly manoeuvrable. Doors will also remain open when in the open position.

Easy to grip "D" handles supplied for users with limited strength.

Shower Chair with Handles and Back Rest

A15401 €86.25

Specifications

- Leg width: 50 cm
- Weight capacity of 135 kg
- Height adjustable: 40 to 54 cm (From floor to seat)
- Seat size: 40 cm wide by 33 cm deep
- Weight of shower chair: 3 kg

- Fully height adjustable
- Ergonomic handles for support when standing
- Ferruled feet provide stability on a wet floor
- Non-slip seat surface
- Lightweight aluminium frame
- Easy, tool-free assembly
- Smooth, accessible surfaces for ease of cleaning

Shower Seat with Back Rest

A15403 €69.60

Specifications

- Leg width: 45 cm
- Weight capacity of 100 kg
- Height adjustable: 35 to 50 cm (from floor to seat)
- Seat size: 49 cm x 29 cm
- Height of backrest (from seat): 37 cm
- Weight of shower chair: 2.8 kg

- Fully height adjustable
- Ergonomic hand grips at the sides of the seat for maximum comfort
- Innovative legs design for superior stability
- Non-slip seat surface
- Sturdy and lightweight aluminium frame
- Ferruled feet provide stability on a wet floor
- Smooth, accessible surfaces for ease of cleaning.

Shower Seat without Back Rest

A15404 €56.50

- Made of high quality aluminium material, with a waterproof PE backrest and seat. It has a drainage outlet on the surface which features a clear and anti-skid texture.
- There are 12 drainage holes to avoid soak in the water all the time
- It features "cut outs" in the seat making it easy to move
- Ergonomic seat board and backrest, which is comfortable to sit on
- Fully height adjustable
- Ferruled feet provide stability on a wet floor.
- Weight capacity of 100 kg
- Smooth, accessible surfaces for ease of cleaning

Round Shower Stool

A15405 €48.96

- Rotating seat reduces twisting and reaching while in the shower providing added manoeuvrability
- The rotating top of the seat can be removed for easy cleaning.
- Fully height adjustable
- Ferruled feet provide stability on a wet floor
- Smooth, accessible surfaces for ease of cleaning
- Dimensions: 33cm in diameter.
- Weight capacity of 100 kg

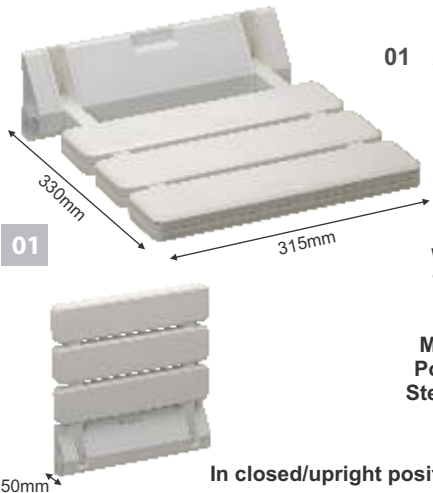

Round Shower Stool with Swivel Seat

A15406 €60.91

 - Size of 600mm x 400mm
 - Non Slip Hygienic Surface
- Prevents slipping in the bathroom - an alternative to standing on a towel or similar mat laid on a tiled floor which can easily move causing people to fall

Angled Safety Grab Rails with Concealed Fixing Points

A32W	White	€30.88
A32B	Blue	€33.73
A32R	Red	€33.73
A32C	Chrome	€34.29

Safety Grab Rails with Concealed Fixing Points

12" Grab Rails

1232W	White	€25.12
1232B	Blue	€27.39
1232R	Red	€27.39
1232C	Chrome	€27.83

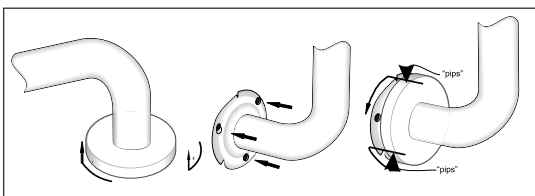

18" Grab Rails

1832W	White	€26.89
1832B	Blue	€29.33
1832R	Red	€29.33
1832C	Chrome	€29.84

24" Grab Rails

2432W	White	€29.67
2432B	Blue	€32.43
2432R	Red	€32.43
2432C	Chrome	€32.96

Please note that fixings are not included with this device as the fixing method will depend on the structure onto which the rail is to be secured. If fitting to a concrete or masonry wall, make sure that good quality plugs and screws are used. Do not fix onto a plasterboard wall unless backing timbers or suitable alternative of sufficient strength is used to ensure a safe and adequate assembly.

These Rails are NOT suitable for use inside Shower Areas

750mm (30") Hinged Grab Rails Without a Hinged Support Leg

TWI1	White	€96.34
TWIB	Blue	€105.73
TWIR	Red	€105.73
TWIC	Chrome	€107.59

750mm (30") Hinged Grab Rails With a Hinged Support Leg

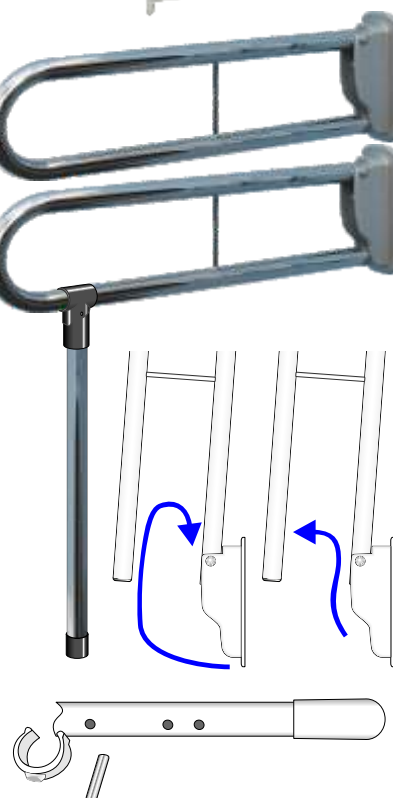

75HGRLW	White	€105.39
75HGRLB	Blue	€115.68
75HGRLR	Red	€115.68
75HGRLC	Chrome	€117.73

Please note that fixings are not included with these rails as the fixing method will depend on the structure onto which the rail is to be secured. If fitting to a concrete or masonry wall, make sure that good quality plugs and screws are used. Do not fix onto a plasterboard wall unless backing timbers or suitable alternative of sufficient strength is used to ensure a safe and adequate assembly.

Both rails incorporate a simple "lift and lock" safety mechanism which keeps the Grab Rail upright against the wall when it is not in use.

Note that in relation to the version with the support leg; a simple to adjust clip is fitted which enables three variations in the length of the leg to be chosen.
